Micro Fund for Cross-cultural Mutual Support Projects

Purposes

Over the years of walking with ethnic minority women in Hong Kong, we have observed how thriving the ethnic minority community is - it is resourceful, creative, adaptive and powerful, but its potential is oftentimes overlooked. Through this Fund, we enable ethnic minority women to utilise their potential and take baby steps to make a change in their communities.

Focusing on cross-cultural exchange, our Fund also envisions a more just and compassionate future for our city. We believe it takes the efforts of all members of society, regardless of ethnicities and genders, to build a more equal, inclusive and diverse Hong Kong.
